**Kentucky *Girls STEM*
Collaborative Project**

Working for Gender Balance in STEM

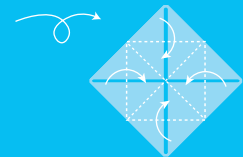

The Kentucky Girls STEM Collaborative (KGSC) brings together businesses and other organizations and individuals who are committed to informing and motivating girls to pursue careers in science, technology, engineering, and mathematics to encourage collaboration and improve inter-program communication.

Visit our website, KGSC.org, and sign up for our newsletter to learn more about STEM opportunities for girls in Kentucky!

Assembling Your STEM Future Teller

1. Fold all four corners so that the points meet in the middle.

2. Turn over and again fold each corner into the center point.

3. Your STEM Future Teller is complete. Use fingers to open.
